

6 Months Training TR-104 Full Stack Development

June, 2026

Day 1 – NMIMS Branding Integration and Home Page Enhancements

1. Objective of the Day

The objective of the day was to implement client-requested branding updates and improve the Home Page of the Hanora website according to revised business requirements.

2. Tasks Performed

- Updated website branding to reflect NMIMS Exclusive Admission Partner identity
- Added NMIMS logo and branding elements across relevant sections
- Integrated UGC-DEB Approved badge and NAAC A+ accreditation information
- Implemented Trust Strip section to improve credibility and user confidence
- Repositioned Home Page content for better visual hierarchy and engagement
- Added Authorized Channel Partner section as per client requirements
- Reviewed branding consistency across website pages

3. Tools / Technologies Used

- Angular Framework
- Angular Material
- Visual Studio Code

4. Key Learnings

- Branding plays a crucial role in establishing trust and credibility
- Content positioning significantly impacts user engagement
- Consistent branding improves professional presentation

- Educational websites require strong trust-building elements
- Client requirements often focus on both design and business objectives

5. Challenges Faced

- Integrating new branding elements while maintaining existing design consistency
- Reorganizing Home Page content without affecting usability

6. Solutions

- Followed a structured approach for branding updates
- Reviewed layout changes and adjusted content placement accordingly

7. Conclusion

- Successfully implemented major branding updates and Home Page enhancements
- Improved website credibility and alignment with client requirements
