

6 Months Training TR-104 Full Stack Development

June, 2026

Day 2 – New Sections Development and User Experience Improvements

1. Objective of the Day

The objective of the day was to implement additional informational sections and improve user engagement features across the website.

2. Tasks Performed

- Added "Why Choose NMIMS" section to highlight program benefits
- Implemented Fees section with structured information layout
- Added Career Outcomes section to showcase future opportunities
- Developed Student Testimonials section for social proof and credibility
- Implemented Comparison section to assist users in decision-making
- Added Frequently Asked Questions (FAQs) section
- Improved existing inquiry forms for better usability
- Integrated WhatsApp functionality to enable direct communication with users
- Added Sticky Admission Bar for improved lead generation and accessibility

3. Tools / Technologies Used

- Angular Framework
- Angular Material
- Visual Studio Code

4. Key Learnings

- Informational sections improve user decision-making
- User engagement features increase interaction opportunities
- Testimonials and FAQs enhance trust and credibility
- Communication channels improve user support experience
- Well-structured content improves website effectiveness

5. Challenges Faced

- Managing multiple content sections while maintaining design consistency
- Ensuring smooth user experience with newly added features

6. Solutions

- Followed consistent UI patterns throughout implementation
- Tested user interactions across all newly added sections

7. Conclusion

- Successfully implemented multiple client-requested sections and engagement features
- Enhanced website functionality and overall user experience
