

6 Months Training TR-104 Full Stack Development

June, 2026

Day 5 – Training Completion and Certificate Awarded

1. Objective of the Day

The objective of the day was to formally complete the six-month industrial training program, receive feedback from mentors, and conclude the internship with certification.

2. Tasks Performed

- Participated in the final training completion meeting with mentors and senior developers
- Reviewed the projects and tasks completed during the six-month training period
- Discussed technical skills acquired throughout the internship
- Received feedback regarding performance, learning progress, and project contributions
- Reflected on practical experience gained in Angular, Firebase, web development, testing, and project implementation
- Completed all remaining training formalities and documentation requirements
- Received the training completion certificate from the organization

3. Tools / Technologies Used

- Angular Framework
- Firebase
- Visual Studio Code
- Web Browser

4. Key Learnings

- Industrial training provides valuable exposure to real-world software development practices
- Working on live projects improves technical and problem-solving skills
- Collaboration with experienced professionals enhances learning and professional growth
- Consistent practice and project work strengthen development capabilities
- Industry experience helps bridge the gap between academic learning and professional work environments

5. Challenges Faced

- Adapting to real-world project requirements and development workflows
- Managing learning across multiple technologies and project domains

6. Solutions

- Sought guidance from mentors and senior developers whenever required
- Applied concepts through hands-on project implementation and continuous practice

7. Conclusion

- Successfully completed the six-month industrial training program in Full Stack Development
- Gained practical experience in Angular, Firebase, web application development, testing, and live project implementation
- Received the training completion certificate and concluded the internship with enhanced technical knowledge and professional skills
