May, 2026

Day 3 – Notes System Validation and Poster Design

1. Objective of the Day

The objective of the day was to validate the complete notes management system and continue poster design activities.

2. Tasks Performed

- Tested notes creation and storage functionality
- Verified editing and auto-save features
- Validated folder management operations
- Checked note sharing functionality
- Confirmed correct data retrieval from Firestore
- Designed posters for live projects using Canva
- Improved visual alignment and presentation
- Exported updated poster designs

3. Tools / Technologies Used

- Angular Framework
- Firebase
- AngularFire
- Canva

4. Key Learnings

- Data validation ensures system reliability

- Thorough testing improves application quality
- Consistency is important for user experience
- Structured testing reveals hidden issues
- Design quality improves through iteration

5. Challenges Faced

- Verifying multiple note operations simultaneously
- Maintaining consistency across features

6. Solutions

- Tested each functionality separately and collectively
- Compared outputs with expected results

7. Conclusion

- Successfully validated notes management features
- Continued poster design activities
